Message from the Board

The December and March meetings were held as scheduled. The planned Lake Maintenance Activities such as Curly Leaf Spraying and Weed Harvesting were discussed and these activities will continue as in past years based on the Lake Survey, Weed Growth and Permit Approvals.

Curly Leaf Pondweed Spraying will happen sometime this spring based on weed growth, a completed lake survey and DNR permit. We plan to treat up to 15 acres of McGinnis Lake for selective control of curly-leaf pondweed, an exotic aquatic plant. Cason & Associates, LLC will perform the treatment in the spring of 2022. The proposed herbicide is Aquathol K® (endothall). There are no restrictions on fish consumption or swimming associated with this herbicide. Warning signs will be posted at the time of treatment.

Currently Weed Harvesting is not scheduled to be done unless weed conditions warrant it and DNR permitting is approved. We did no weed harvesting in 2021 due to the improved weed control achievement.

The newly created Website for the McGinnis Lake District is available for all to access. Listed on the site are the members of the Lake District Board, future and past meeting Agendas, Minutes, Newsletters and other informational documents. Utilizing this new site is a great asset to provide easy access to the Lake District Information. <https://newchestertown.com/mcginnis-lake-district/> Thanks to the Town of New Chester for providing this resource for our use!!!

Q: What about the high lake levels that continue?

A: The McGinnis Lake level is controlled by the dam and continues to dump the maximum amount of water it can into the Neenah Creek Watershed. The levels are the highest I have seen in the 40 years as a lake resident and will take a period of time to settle back to a more constant level as we once enjoyed. Mother Nature has been the contributor to supplying all the moisture feeding the lake watershed. Many lakes in Wisconsin are facing similar problems but we are fortunate to have the dam to provide some water release. Of course nature will dictate the future and we will continue to enjoy our beautiful lake!! FYI - The dam is owned and operated by Adams County Land and Water Department.

Q: What can I do to help the McGinnis Lake District?

A: We are currently looking for volunteers to help the District doing water quality surveys. These surveys don't require a lot of time but need to be completed to insure the lake quality is the best it can be. The surveys begin in the spring and take less than an hour of your time throughout the summer at your convenience. Training is available and all the necessary items to complete the tests are supplied. Please contact Ken Roberts (608-617-6723) regarding helping us with this activity.

Q: What if I want to become a member of the Lake District Board?

A: All members of the Lake District are eligible to join the board as an elected member. The Chairman, Secretary and Treasurer are elected to terms of 3 years. Not all of us are full time residents of the lake but know how important it is to insure the quality of the lake is preserved!!! A couple of us have served on the board since the District was formed many years ago and would welcome new individuals to take over in the future. Please contact me if you're interested in reviewing the future opportunities as a board member!!! Barry A. Berndsen (630-452-6645)

**Q: What can the new McGinnis Lake District EMAIL address mean to me?
(McGinnisLakeDist@aol.com)**

A: Yes we have established one and would hope it can be used for communication to and from the Lake District Board. As a member we encourage you to use it for any questions you might have regarding McGinnis Lake District Operations. But most importantly we would like to be able to communicate to you (our members) directly via EMAIL. Sending meeting notices, newsletters, and other important communication in a timely manner is important to us. Please help us by sending your EMAIL address to us and we will add you to the EMAIL mailing list. This mailing list has only **one purpose** and is for the board to communicate to you quickly in a cost effective manner. Once we receive your address we will begin to use it for future communications and remove you from receiving information via US MAIL. (I have received 30 to date☺) Its Never too Late!!!!

Q: What if I want to make changes to my shoreline or cut down trees?

A: Any actions within the lake buffer zone and outside for tree cutting requires Adams County Zoning and Planning Approval similar to a building permit application. Failing to do that may result in fines in accordance with county laws. Please contact the Adams County Zoning and Planning for permit information.

Q: Burning Permits!!! Everyone should have one??

A: The DNR offers you an easy way to acquire a permit by using the self-service website or are available from your local fire marshal (IT'S FREE). For your information burning is only permitted between 6:00pm and midnight and never on Sundays and holidays. Without a permit you could be found guilty of either a civil or criminal charge when burning in violation of Wisconsin laws. <http://dnr.wi.gov/burnpermits/>

Q: Are we still members of the Central Sands Water Action Coalition and Adams County Lake Alliance?

A: We continue to be active participants in these organizations and have attended many meetings to date and have found these to be very beneficial organizations for us to support. I continue to encourage you to look at the website www.centralsandswater.org to review current actions and information. The Adams County Lake Alliance is <http://aclakes.org/index.html> for your reference of ongoing meetings and activities.

Q: Do we have a Lost and Found?

A: Periodically items end up in the lake like rafts, paddles, various swim toys and etc. People find these items and are not sure who's they are or what to do??? If you find something and/or lost something please email the Lake District email or call Barry Berndsen at 630-452-6645. We will try our best to help find the happy homes for these items noted based on the **input we receive!!**

Q: Are you interested in purchasing Trees or Scrubs?

A: The Adams County Land and Water Department provides an annual sale of a wide variety of trees and scrubs. Anyone interested should please contact Megan Steckelberg (608) 339-4268 for information on order form and availability of product.
