### **Old Business**

Lake Maintenance Activities - A survey was done to identify curly leaf pond weed and a treatment was applied. The lake had about half as much pond weed as last year indicating the effectiveness of 2021 treatment. At this time a whole lake spraying was not approved by the DNR but we will continue discussions with DNR and Cason's on other alternatives. An additional survey will be conducted to identify any Eurasian Milfoil present in the lake and a possible treatment may occur based on DNR's approval. We will also monitor the lake to see if any weed harvesting might be necessary also needing a DNR permit.

### **New Business**

Lake District individuals asked questions regarding Lake District activities but none needed to be acted on by the board at this time.

Dave Rollmann was present and he indicated that a count was needed to be done on total geese to potentially execute their removal again this year. He will follow up on the process with USDA and DNR and take action if the goose population is at appropriate levels.

A motion to adjourn was made by Steve Zoulek and seconded Ken Roberts.  
The Motion passed.

The next meeting will be Saturday September 3, 2022
